## Profile

- Experienced system administrator specializing in Mac OS environments.

## Education

- Florida Atlantic University, Bachelor of Fine Arts: Film, Video and TV Production, 2007.

## Experience and Skills

### Technical

- Most recently performed a complete network reconstruction for Fluent, Inc. in Deerfield Beach Florida. This included setup of a brand new **xserve** running OS X server 10.5 (iCal, iChat, Open Directory, Apache, Web Wiki, Blogs, Mail, File Services, Software Update, VPN etc.). Deployment of these services on all client machines. Daily help-desk issues (GLPI). Re-engineering of their physical ethernet network and running those cables. All machines updated to OS X 10.5 Leopard.
- Experienced help-desk personnel manager.
- Experienced mail server administrator (Postfix, OS X). Expert in anti-spam technologies.
- Experience deploying and maintaining analog and VOIP telephony systems.
- FileMaker experience.
- MySQL Database experience.
- Experience using and providing support for Adobe CS3 Suite, Final Cut Studio 2, Microsoft Office 2003 - 2008, etc.
- **Five years experience** in IT, deploying and maintaining Mac OS X (Tiger, Leopard), Windows (98, 2000, XP, Vista), and Linux (Fedora, Debian, Knopix, Ubuntu) networks (400+ users) and servers.
- Implementation of online collaborative document management (Google Tools).
- Always current on emerging technologies and trends.
- A love of learning.
- A general love for all things technical and geeky.
